## SKILLS

### FRONTEND

- HTML
- CSS
- JavaScript
- Tailwind CSS
- React Js
- Redux

### BACKEND

- Python
- Django

### DATABASE

- PostgreSQL

### FAMILIAR WITH

- Node Js
- Express Js
- MySQL

## EXPERIENCE

### AV7 SCM | A TECHNOLOGY DIVISION OF THE CHENNAI SILKS.

Junior Associate | 1+ Years of Experience

April 2024 - Present | Tiruppur

### FRONTEND DEVELOPMENT

- Enhanced code readability and reuse by creating **custom reusable components** in **React**, reducing duplication by **40%** across modules.
- Utilized **React Hooks** and **Redux** for efficient **state management**, improving **UI responsiveness** and consistency.
- Developed **user-facing interfaces** using **React.js** and **Tailwind CSS**, contributing to smooth workflows across internal tools and client-facing platforms.

### BACKEND DEVELOPMENT

- Boosted **API performance** by optimizing data handling and logic using **Django models**, resulting in faster response times.
- Used **PostgreSQL** alongside **Django ORM** for managing structured data with moderate complexity.
- Collaborated on backend modules for **visitor management**, **logistics**, and **budgeting**, supporting business operations through well-structured **APIs**.
- Actively involved in **version control**, **feature deployment**, and **debugging** using **Git** within an **agile team environment**.

## PROFILE SUMMARY

**Full Stack Developer** with **1+ years of experience** developing **scalable web applications** using **React.js**, **Django**, and **PostgreSQL**. Experienced in **front-end** and **back-end development**, **REST API integration**, and **database management**. **Promoted from trainee to junior associate** based on **performance** and **technical growth**. Committed to writing **clean, maintainable code** and contributing to **full project cycles** in **collaborative environments**.

## PERSONAL PROJECTS

### 1. E-commerce Website

[GitHub](#) [Live](#)

Created a web-based e-commerce front end using **React.js**. Included features like **product listing**, **cart system**, and **responsive layout**.

### 2. Portfolio Website

[GitHub](#) [Live](#)

Developed a personal portfolio using **React.js**, **Redux**, and **Node.js**. Included **project showcase**, **contact form**, and **resume download**.

## ENTERPRISE PROJECTS

### 1. Visitor Pass Management System

Developed a **full-stack internal and outsourcing tool** to manage **employee and visitor access**. Built using **React** and **Django REST APIs**, with features like **secure login**, **form workflows**, and **admin approval modules**.

### 2. Company Budget Management System (Enterprise Use)

Designed and implemented a **Django-based web application** for internal **budgeting** and **departmental expense tracking**. Included features such as **real-time updates**, **dynamic form handling**, and **data validation**.
